WORK EXPERIENCE (~ 5 YEARS)

CVENT INC.

Working on Cvent Supplier Network's **Redesign** involving a **complete revamp** of the older application with a **new tech stack** in sync with modern design language.

Working on a Full Stack Technologies Set as follows –

- **Frontend** - React, JS, TS, NextJS Framework & GraphQL.
- **Backend** - Java, REST Microservices using DropWizard Framework, AWS, Couchbase, SQL, PostgreSQL.

SENIOR SOFTWARE ENGINEER

- Since Sept 2023

- Responsible for innovating and designing many Generative AI based application features.
- Provided technical guidance and oversight, ensuring high-quality code and system architecture within the team.
- Became Subject Matter Expert for react performance & web accessibility enhancements.
- Facilitated knowledge sharing within the team, conducting code reviews and promoting best coding practices.
- Contributed extensively to the company's modern UI (React-TS-Based) framework.
- Lead multiple team tech on-boarding programs for new hires.

SOFTWARE ENGINEER - I / II

- July 2019 – August 2022

- Excelled in delivering critical & high business-generating product features in an agile environment with utmost performance & quality.
- Strongly acted as the bridge between UX and Development teams to engineer innovative yet, simple design solutions for a wide set of complex UI problems.
- Efficiently created & optimised (existing) many backend microservices to deliver the performant, robust & safe Rest APIs.
- Authored & managed most of the redesign project's contribution guidelines & other technical documentation.

SOFTWARE ENGINEER – INTERN

- March - July 2019

- Efficiently created & optimised (existing) UI Automation Suites
